New Century Hospice Care

Summer 2019 - now

- Visit patients who are in palliative care at nursing home

UT Informal Classes aimed at adults with disabilities.

Spring 2018, Fall 2018, Fall 2019

- Work with the instructor to facilitate the class, have a chance to talk and understand more about people with disabilities.

Caritas of Austin

Summer 2018

- Worked with the education program coordinator to develop resettlement lessons; helped to prepare some events for new-coming refugees.
- Learned about homelessness and refugees resettlement in Austin

Baylor Scott & White Medical Center at Plano

Summer 2016; Winter Break 2016, 2017

- Assisted at the nurse station in Day Surgery Department, shadowed the nurses and helped with basic tasks; learned bedside manner by observing health professions interact with patients; understood pre and post-operation procedure.
- Improved interpersonal skill, communication skills through working with dog therapist.
- Worked at the concierge desk; coordinated with staff and other volunteers to plan events for the patients on Christmas and New Year.

Freshman Research Initiative - Aptamer Stream Lab

Summer 2017

- Conducted research on my individual project to find an Aptamer against Calf Intestinal Alkaline Phosphatase for diagnosis Acute Myeloid Leukemia.

INVOLVEMENT & LEADERSHIP

- Service Coordinator (Fall 2019) and Service Director (Spring 2020) of Health Careers Mentorship Program
 - My duty is planning service events and volunteer for members of the organization
 - Organizing and doing outreach presentation to Austin's underserved highschool to talk about pathway to college and health professional field
- Dell Medical School Health Science Summer Camp Mentor Summer 2019
 - Worked with high school, middle school students from Austin's underserved communities, share college application tips and experience of being a student at UT.
- Intern in Health Careers Mentorship Program (HCMP) Spring 2019
 - The organization has a network with many physicians in Austin and Texas Department of State Health Services which have interns to shadow 80+ hours per semester.
- Working on the project called "Phylogeny of the Anti-Lysozyme Aptamer in the Literature" with Dr. Gwen Stovall Fall 2018
- Undergraduate researcher in The Ellington Lab Summer 2018
- Independent Researcher and Mentor in Aptamer Stream Spring 2018
 - Continued to work on my project and helped freshmen who are new to research
 - Participated in the Undergraduate Research Forum 2018 to present my research project.
- Lab technician internship in Aptamer Stream Lab Fall 2017
 - Prepared aliquots, reagents, RNA pool for the lab and performed reagents check.
- Texas Interdisciplinary Plan (TIP) Scholar Fall 2016 - present
- University Leadership Network Fall 2016 - present
